

Our ESG Framework

Successfully managing ESG risks is becoming increasingly essential for New Zealand businesses, across all sectors, to foster resilience and ensure long-term sustainability.

We offer tailored, practical advice to help businesses manage risks and take advantage of the opportunities this new environment presents. We can provide support across the full spectrum of ESG issues within both a global and local framework.

Climate Policy, Reporting and Litigation

- Climate-related disclosures (CDRs)
- ESG reporting
- Policy and regulatory reform
- Regulatory engagement
- Climate change & ESG disputes & litigation
